

Application No. 10/758,673
Amendment dated May 7, 2008
Office Action of February 8, 2008

Docket No. NY-LUD 5483-US7-DIV

REMARKS

Entry of the amendment is requested.

As the Examiner has re-opened prosecution, applicants have the right to add additional sequence information to the claims, and have done so.

The Examiner's rejection as set forth at point 6 is believed to be addressed by amendments to the claims. Claim 24 specifically recites melanoma. Further, the Examiner admits to applicants providing support for "tumor infiltrating lymphocytes," which *de facto* means the patient has a tumor. Hence, the amendment is supported and believed proper.

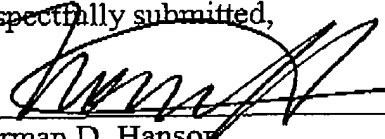

All issues have been addressed, and it is believed allowance is now appropriate.
